Covid-19 Restrictions: Important update from NSW Health

Dear residents, families and visitors,

NSW Health have issued an important update to visitor restrictions for all aged care facilities in NSW.

The advice states that until further notice any visitor to an aged care facility should be excluded from the facility if they have visited or been to any of the following areas in the previous 14 days.

Local Health District	Local Government Areas
Central Coast	Central Coast
Nepean Blue Mountains	Blue Mountains Hawkesbury Lithgow Penrith
Northern Sydney	Hornsby Hunters Hill Ku-Ring-Gai Lane Cove Mosman North Sydney Northern Beaches Ryde Willoughby
South Eastern Sydney	Bayside Georges River Randwick Sutherland Shire Sydney (part LGA) Waverley Woollahra
South Western Sydney	Camden Campbelltown Canterbury-Bankstown (part LGA) Fairfield Liverpool Wingecarribee Wollondilly
Sydney	Burwood Canada Bay Canterbury-Bankstown (part LGA) Inner West Strathfield Sydney (part LGA)
Western Sydney	Blacktown Cumberland Parramatta The Hills Shire

Please note that this new requirement effects those that live in or have just visited these areas. For example; you may live in Shellharbour but visited Bowral for dinner last weekend. If this is the case then you must stay away from Blue Haven until 14 days since you last visited that area.

To help us keep Covid-19 out please do not visit if you have been to any of these areas in the previous 14 days.

If you are uncertain if an area you have visited is included in the restrictions then please call Blue Haven to discuss this with us prior to your visit on **02 4232 1144**.

NSW have made clear that there will be no exceptions to this advice for Father's Day. If you were planning on visiting at Father's Day but due to these new restrictions are now not eligible please contact us to discuss how we can facilitate a connection by phone or video call.

If you require any further information or if I can be of assistance at all please do not hesitate to contact me directly.

Sincerely,

Dale Wakefield,
